Company Profile

Company Background:

Muzi-Lifts Project was established in 2008 as a result of the visionary leadership of the founder and Director saw a growing need to form a wholly 100% black owned and managed Engineering Company.

Muzi-Lifts Project as a small Engineering business, it is our intention to grow and foster lasting relationships with our clients to our mutual benefits. In return we will offer service delivery excellence, competitive pricing and the highest ethical standards in all our dealings.

Market Segments:

Based in Gauteng and Mpumalanga, we make ourselves accessible to our customers in and around these Provinces and the surrounding areas but not limited to these areas. The following sectors will be our primary focus but not limited to:

- Manufacturing Sectors
- Construction Sector
- Government and Semi-Parasternal
- Mining Sector

Competences:

Our core competencies with the quality of services are:

- Breakdown service
- 24/7 Assistance
- Repairs and Maintenance
- Complete Maintenance Contracts

Mission:

Muzi-Lifts Project strive to create employment opportunities and train our staff members in all facets of Civil, Electrical and Mechanical Engineering in order to maintain a high quality of service which ensures an easy retention of our clients.

We recognized that the Human Resource component of any small business is the most important interface with our clients, and is only surpassed by the quality and timeous delivery of these products and services to our clients. We believe in customer satisfaction long, mutually rewarding and happy relationship with our clients, which are underscored by our personal service.

Values:

- Our core business belief is to research and source on behalf of our clients, their requirements to their exact specification, thus freeing their time to spend it on their core business.
- We belief that the strength lies in our ability to source and supply business requisites at competitive prices.
- Furthermore companies are looking for quality goods and services at competitive prices and at the shortest possible turnaround times. Businesses have also been challenged by government to meet their employment equity targets by supporting HDI / BEE Companies.
- We believe that we are well positioned to meet this demand in the market place.

Key Strategies:

It is **Muzi-Lifts Project** primary strategy to empower and groom the local market to compete globally by offering prompt and efficient service; reasonable pricing; employ well trained, honest staff members with integrity; continuous communication with our clients; quality workmanship and service; working safely and have safety in mind at all times and support Broad-Based Black Economic Empowerment
